Editorial Review

Amazon.com Review

The bestselling author of *Red Storm Rising* and *The Sum of All Fears* brings Jack Ryan back in his to fight his deadliest battle yet.

From England to Ireland to America, an explosive wave of violence sweeps a CIA analyst and his family into the deadliest game of our time: international terrorism. An ultra-left-wing faction fo the IRA has targeted the CIA man for his act of salvation in an assasination attempt. And now he must pay ... with his life.

From Publishers Weekly

Introduced in *The Hunt for Red October*, Jack Ryan, the naval historian who freelances for the CIA, returns in this novel, in which Clancy demonstrates once again that he is a master of a genre he seems to have createdthe technico-military thriller. On a visit with his wife and daughter in London, Ryan stumbles onto an attempt by a new Irish revolutionary group to kidnap the Prince and Princess of Wales and their eldest son. Using his Marine Corps training, Ryan saves the royals (which leads to several visits between the Ryans and the residents of Buckingham Palace), but Ryan becomes the target of the surviving terrorists. Many familiar elements of the Clancy style are evident here: a fascination with machines and systems and procedures; thin characters; idealization of the soldier's life ("the discipline and the essential toughness that makes them different"); sarcastic humor; and a discordant sentimentality about family life. There are also some unintended ironies, particularly Clancy's praise of the CIA and the Marines, considering recent news from Washington and Moscow. Nonetheless, Clancy spins a marvelously tense yarn that will appeal to his legion of fans. First serial rights to Penthouse; Literary Guild, Doubleday Book Club, Military Book Club, Reader's Digest Condensed Books selections.

From School Library Journal

YA Jack Ryan is back with a vengeanceliterally. The hero of *Hunt for Red October* (Naval Institute Pr., 1984) stars here in a prequel to Clancy's first novel, with page-turning results. Years before *Hunt* . . . , Ryan, vacationing with his family in England, thwarts an assassination attempt on the Prince of Wales, his wife, and child. The terrorists responsible do not take such interference with their plans lightly, and Ryan and his family are in great danger from their new enemies. All of Ryan's considerable talents and courage are put to the ultimate test of saving those he loves from terrorist vengeance. There is greater emphasis in this novel on plot and characterization, less on military tactics and hardware, so that Clancy has fashioned a more old-fashionedand first-classtriller than in his first two novels. *Patriot Games* establishes that *Hunt for Red October* and *Red Storm Rising* (Putnam, 1986) were no mere trendy flukes, and that Clancy is an action writer of considerable talent.
