### The Story of Pain: From Prayer to Painkillers By Joanna Bourke

Everyone knows what it feels like to be in pain. Scraped knees, toothaches, migraines, giving birth, cancer, heart attacks, and heartaches: pain permeates our entire lives. We also witness other people - loved ones - suffering, and we 'feel with' them.

It is easy to assume this is the end of the story: 'pain-is-pain-is-pain', and that is all there is to say. But it is not. In fact, the way in which people respond to what they describe as 'painful' has changed considerably over time. In the eighteenth and nineteenth centuries, for example, people believed that pain served a specific (and positive) function - it was a message from God or Nature; it would perfect the spirit. 'Suffer in this life and you wouldn't suffer in the *next* one'. Submission to pain was required. Nothing could be more removed from twentieth and twenty-first century understandings, where pain is regarded as an unremitting evil to be 'fought'.

Focusing on the English-speaking world, this book tells the story of pain since the eighteenth century, addressing fundamental questions about the experience and nature of suffering over the last three centuries. How have those in pain interpreted their suffering - and how have these interpretations changed over time? How have people learnt to conduct themselves when suffering? How do friends and family react? And what about medical professionals: should they immerse themselves in the suffering person or is the best response a kind of professional detachment?

As Joanna Bourke shows in this fascinating investigation, people have come up with many different answers to these questions over time. And a history of pain can tell us a great deal about how we might respond to our own suffering in the present - and, just as importantly, to the suffering of those around us.

### Editorial Review

#### Review

"This book is rich with examples illustrating medical, religious, racial, and gendered discourses about its subject and the impact these have had, and continue to have, in the provision of medical care to the public . . . A fascinating read" --Library Journal

"Bourke has done a fine job of detailing the story of pain and the folly it reveals."

--Kirkus Reviews

"The Story of Pain is full of harrowing first-hand accounts of excruciating pain . . . But on balance, reading The Story of Pain is more pleasant than painful. Bourke has, for the most part, put together a fantastic, compelling, and engaging history. She writes scrupulously and generously." -- Bookforum

"The Story of Pain is a bold exploration grounded in historical sources . . . [it] opens an enormous field of inquiry with interesting but unexplored ramifications . . . Bourke's work prompts the need for a study of contemporary understandings of religion and pain. The field is open." --National Catholic Reporter

#### About the Author

**Joanna Bourke** is Professor of History at Birkbeck College at University of London. She is the prize-winning author of nine books, including histories of modern warfare, military medicine, psychology and psychiatry, the emotions, and rape. Among others, she is the author of *Dismembering the Male: Men's Bodies, Britain, and the Great War* (1996), *An Intimate History of Killing* (1999), *Fear: A Cultural History* (2005) and *Rape: A History from 1860 to the Present* (2007), *What it Means to be Human: Reflections from 1791 to the Present* (2011), and *Wounding the World: How Military Violence and War-Play Invade our Lives* (2014). *An Intimate History of Killing* won the Wolfson Prize and the Fraenkel Prize, and "Eyewitness," her audio history of Britain, won a number of prizes, including the Gold for the Most Original Audio. She is also a frequent contributor to TV and radio shows, and a regular newspaper correspondent.

### Users Review

#### From reader reviews:

##### **Betty Borgen:**
