### Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) From Artech House

Because the direction to targets is usually expressed by the direction of arrival (DOA) of transmitted signals, determining the direction of arrival (DOA) of any signal is of critical importance to electrical engineers working on both civilian and tactical applications in radar and communications. This cutting-edge resource presents the latest developments in DOA estimation from the leading researchers in the field. The first compiled book in the field, this in-depth reference covers a wide range of key topics, from DOA estimation methods and source localization problems, to specific applications of DOA estimation and experimental setup and results. Practitioners discover how DOA estimation is one of the main functional requirements for direction-finding smart antennas in next generation mobile and stealth communication systems. The book also serves as an excellent text for graduate students and researchers studying in this area.

### **Editorial Review**

#### **About the Author**

Sathish Chandran is a senior radio consultant in Malaysia. He holds an M.Sc. in radio frequency communications engineering from the University of Bradford, West Yorkshire and a Ph.D. in antennas and microwave engineering from Loughborough University, Leicestershire.

### **Users Review**

#### **From reader reviews:**

##### **Nathan Wilson:**

This Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) are usually reliable for you who want to be considered a successful person, why. The explanation of this Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) can be one of many great books you must have is giving you more than just simple studying food but feed an individual with information that possibly will shock your earlier knowledge. This book will be handy, you can bring it all over the place and whenever your conditions at e-book and printed ones. Beside that this Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) forcing you to have an enormous of experience including rich vocabulary, giving you trial run of critical thinking that could it useful in your day activity. So , let's have it appreciate reading.

##### **Jesus Sandiford:**

Exactly why? Because this Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will jolt you with the secret the idea inside. Reading this book beside it was fantastic author who have write the book in such amazing way makes the content interior easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of advantages than the other book have such as help improving your ability and your critical thinking approach. So , still want to postpone having that book? If I were you I will go to the guide store hurriedly.

##### **Noah Giles:**

Are you kind of active person, only have 10 or maybe 15 minute in your time to upgrading your mind skill or thinking skill also analytical thinking? Then you are receiving problem with the book as compared to can satisfy your short space of time to read it because all this time you only find book that need more time to be study. Advances in Direction-of-Arrival Estimation (Artech House Radar Library (Hardcover)) can be your answer mainly because it can be read by an individual who have those short time problems.

**Elsie Wallace:**

As we know that book is vital thing to add our understanding for everything. By a book we can know everything you want. A book is a group of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This e-book *Advances in Direction-of-Arrival Estimation* (Artech House Radar Library (Hardcover)) was filled with regards to science. Spend your free time to add your knowledge about your science competence. Some people has various feel when they reading some sort of book. If you know how big advantage of a book, you can experience enjoy to read a e-book. In the modern era like today, many ways to get book you wanted.
