Cyber Risk By Michael Woodson

In an increasingly inter-connected world, cyber security has become a global threat that knows no boundaries. Cyber criminals now have new channels through which they are able to disrupt systems and access valuable data, gaining the ability to cause wide-scale disruption and cost for institutions, reputation and customers alike. Cyber Risk provides readers with a comprehensive overview of the key developments in cyber security within the financial space, enabling them to learn solutions to critical issues and formulate a good practice methodology that ensures they stay ahead of the latest threats. Less Editor Michael Woodson has assembled a team of experts from institutions such as HSBC, Deutsche Bank, and the Federal Reserve Bank of Boston, all of whom are uniquely qualified to contribute to the ongoing discussion regarding this capricious and exponentially significant risk. Book description Cyber risk for financial institutions is a relatively new and developing risk area but it is a huge issue that can only grow in importance. Cyber Risk addresses the growing concerns brought about by the increased frequency of cybercrime incidents in the financial industry, with authors discussing cutting edge tactics and regulation that respond to and counteract this evolving threat. This multi-contributor book provides readers with a comprehensive overview of the key developments in cyber security within the financial space, enabling them to learn solutions to critical issues and formulate a good practice methodology that ensures they stay ahead of the latest threats. Chapters cover: Cyber Risk Profile and Communication to the Board The Cyber Risk Landscape Cyber Security Metrics Regulations, Compliance and Cyber Risk Management Cyber Risks in Business Continuity Management and Supply Chain Resilience Third Party and Vendor Risk Management Cyber Incident Response

Users Review

From reader reviews:

Joshua Ricker:

In this 21st one hundred year, people become competitive in each way. By being competitive currently, people have to do something to make these individuals survive, being in the middle of the actual crowded place and notice by means of surrounding. One thing that oftentimes many people have underestimated the item for a while is reading. That's why, by reading a publication your ability to survive improve then having chance to stay than other is high. To suit your needs who want to start reading the book, we give you that Cyber Risk book as starter and daily reading e-book. Why, because this book is usually more than just a book.

Martina Joseph:

Now a day people that Living in the era where everything reachable by connect with the internet and the resources included can be true or not need people to be aware of each data they get. How many people to be smart in acquiring any information nowadays? Of course the reply is reading a book. Reading through a book can help people out of this uncertainty Information specifically this Cyber Risk book because this book offers you rich information and knowledge. Of course the information in this book hundred per-cent guarantees there is no doubt in it you probably know this.

Allan Kean:

Do you have something that you prefer such as book? The guide lovers usually prefer to pick book like comic, quick story and the biggest an example may be novel. Now, why not striving Cyber Risk that give your fun preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the opportunity for people to know world better then how they react toward the world. It can't be mentioned constantly that reading habit only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start studying as your good habit, you can pick Cyber Risk become your own personal starter.

Russell Wade:

This Cyber Risk is great publication for you because the content that is certainly full of information for you who always deal with world and still have to make decision every minute. This book reveal it information accurately using great plan word or we can claim no rambling sentences inside. So if you are read that hurriedly you can have whole information in it. Doesn't mean it only gives you straight forward sentences but challenging core information with wonderful delivering sentences. Having Cyber Risk in your hand like getting the world in your arm, details in it is not ridiculous just one. We can say that no book that offer you world with ten or fifteen minute right but this reserve already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. busy do you still doubt this?
