Differential Equations with Symbolic Computation (Trends in Mathematics)

From Brand: Birkhäuser

This book presents the state-of-the-art in tackling differential equations using advanced methods and software tools of symbolic computation. It focuses on the symbolic-computational aspects of three kinds of fundamental problems in differential equations: transforming the equations, solving the equations, and studying the structure and properties of their solutions.

Editorial Review

Review

From the reviews:

“The book comprises 20 paper-like chapters written by different authors. ... the presented topics are well covered by the contributions and since the information content of each chapter is further enhanced by a rich reference section, researchers and students pursuing the relevant subjects should not miss this book.” (Jan Chleboun, Applications of Mathematics, Vol. 56 (5), 2011)

Users Review

From reader reviews:

Helen Palmer:

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite reserve and reading a guide. Beside you can solve your condition; you can add your knowledge by the book entitled Differential Equations with Symbolic Computation (Trends in Mathematics). Try to face the book Differential Equations with Symbolic Computation (Trends in Mathematics) as your good friend. It means that it can to get your friend when you experience alone and beside that course make you smarter than in the past. Yeah, it is very fortuned for you. The book makes you a lot more confidence because you can know almost everything by the book. So , we need to make new experience and also knowledge with this book.

John Caldwell:

Playing with family in a park, coming to see the ocean world or hanging out with buddies is thing that usually you may have done when you have spare time, after that why you don't try matter that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Differential Equations with Symbolic Computation (Trends in Mathematics), you could enjoy both. It is good combination right, you still wish to miss it? What kind of hang-out type is it? Oh seriously its mind hangout people. What? Still don't understand it, oh come on its identified as reading friends.

Michelle Jennings:

You may get this Differential Equations with Symbolic Computation (Trends in Mathematics) by go to the bookstore or Mall. Just viewing or reviewing it can to be your solve issue if you get difficulties to your knowledge. Kinds of this e-book are various. Not only simply by written or printed and also can you enjoy this book by simply e-book. In the modern era such as now, you just looking by your local mobile phone and searching what your problem. Right now, choose your own personal ways to get more information about

your guide. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose appropriate ways for you.

Selma McDaniel:

Reading a guide make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is created or printed or descriptive from each source that will filled update of news. In this particular modern era like right now, many ways to get information are available for you actually. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just trying to find the Differential Equations with Symbolic Computation (Trends in Mathematics) when you essential it?
