## Dancing Wu Li Masters: An Overview of the New Physics By Gary Zukav

“The most exciting intellectual adventure I've been on since reading Robert Pirsig's *Zen and the Art of Motorcycle Maintenance*.”

—<?xml:namespace prefix = st1 ns = "urn:schemas-microsoft-com:office:smarts" />Christopher Lehmann-Haupt, *New York Times*

<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

Gary Zukav's timeless, humorous, *New York Times* bestselling masterpiece, *The Dancing Wu Li Masters*, is arguably the most widely acclaimed introduction to quantum physics ever written.

*Scientific American* raves: “Zukav is such a skilled expositor, with such an amiable style, that it is hard to imagine a layman who would not find his book enjoyable and informative.” Accessible, edifying, and endlessly entertaining, *The Dancing Wu Li Masters* is back in a beautiful new edition—and the doors to the fascinating, dazzling, remarkable world of quantum physics are opened to all once again, no previous mathematical or technical expertise required.

### Editorial Review

#### Amazon.com Review

At an Esalen Institute meeting in 1976, tai chi master Al Huang said that the Chinese word for physics is *Wu Li*, "patterns of organic energy." Journalist Gary Zukav and the others present developed the idea of physics as the dance of the Wu Li Masters--the teachers of physical essence. Zukav explains the concept further:

The Wu Li Master dances with his student. The Wu Li Master does not teach, but the student learns. The Wu Li Master always begins at the center, the heart of the matter.... This book deals not with knowledge, which is always past tense anyway, but with imagination, which is physics come alive, which is Wu Li.... Most people believe that physicists are explaining the world. Some physicists even believe that, but the Wu Li Masters know that they are only dancing with it.

The "new physics" of Zukav's 1979 book comprises quantum theory, particle physics, and relativity. Even as these theories age they haven't percolated all that far into the collective consciousness; they're too far removed from mundane human experience not to need introduction. *The Dancing Wu Li Masters* remains an engaging, accessible way to meet the most profound and mind-altering insights of 20th-century science. --  
*Mary Ellen Curtin*

#### Review

"The most exciting intellectual adventure I've been on since reading Robert Pirsig's *Zen and the Art of Motorcycle Maintenance*." -- --*Christopher Lehmann-Haupt, The New York Times*

"This book is an extremely clear and easily understandable account of the latest developments in physics... --  
--*David Bohm, Professor of Physics, Birkbeck College, University of London, in Nature*

#### From reader reviews:

#### Leonard Parnell:

Book is actually written, printed, or outlined for everything. You can realize everything you want by a reserve. Book has a different type. As you may know that book is important point to bring us around the world. Next to that you can your reading skill was fluently. A e-book Dancing Wu Li Masters: An Overview of the New Physics will make you to end up being smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think this open or reading any book make you bored. It is not make you fun. Why they can be thought like that? Have you trying to find best book or appropriate book with you?

**Christine Kaufman:**

Reading a book can be one of a lot of action that everyone in the world likes. Do you like reading book therefore. There are a lot of reasons why people enjoy it. First reading a book will give you a lot of new data. When you read a publication you will get new information simply because book is one of several ways to share the information or even their idea. Second, reading through a book will make an individual more imaginative. When you reading through a book especially hype book the author will bring you to definitely imagine the story how the figures do it anything. Third, you can share your knowledge to other people. When you read this Dancing Wu Li Masters: An Overview of the New Physics, you may tells your family, friends and also soon about yours book. Your knowledge can inspire the others, make them reading a guide.

**David Lucero:**

You can get this Dancing Wu Li Masters: An Overview of the New Physics by visit the bookstore or Mall. Merely viewing or reviewing it could possibly to be your solve trouble if you get difficulties to your knowledge. Kinds of this publication are various. Not only through written or printed but also can you enjoy this book simply by e-book. In the modern era just like now, you just looking because of your mobile phone and searching what their problem. Right now, choose your own ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still change. Let's try to choose proper ways for you.

**Sharon Brogdon:**

Do you like reading a publication? Confuse to looking for your chosen book? Or your book was rare? Why so many problem for the book? But any kind of people feel that they enjoy for reading. Some people likes looking at, not only science book but in addition novel and Dancing Wu Li Masters: An Overview of the New Physics or even others sources were given expertise for you. After you know how the great a book, you feel would like to read more and more. Science e-book was created for teacher or students especially. Those ebooks are helping them to bring their knowledge. In different case, beside science e-book, any other book likes Dancing Wu Li Masters: An Overview of the New Physics to make your spare time a lot more colorful. Many types of book like this one.
