European Dictatorships 1918–1945 By Stephen J. Lee

European Dictatorships 1918–1945 surveys the extraordinary circumstances leading to, and arising from, the transformation of over half of Europe's states to dictatorships between the first and the second World Wars. It describes the course of dictatorship in Europe before and during the Second World War, and examines the phenomenon of dictatorship itself and the widely different forms it can take. From the notorious dictatorships of Mussolini, Hitler and Stalin to less well-known states and leaders, this book scrutinizes the experiences of Russia, Germany, Italy, Spain and Portugal, and Central and Eastern European states.

This third edition has been revised throughout to include recent historical research and contains a completely new chapter on the meaning of dictatorship. Including new tables, maps and diagrams, this is the perfect survey for all students of the period.

Editorial Review

Review

Lee should be commended on his excellent narrative accounts of these complex and diverse cases. The chapters are well organized and the prose is generally clear and direct. Lee also has a talent for focusing solely on the most important details and for making these details come alive.
