## Symptom Oriented Approach to Otorhinolaryngology: Three Volume Set

By Zahoor Ahmed

Symptom Oriented Otolaryngology: Head & Neck Surgery - Three Volume Set is an extensive, illustrated review of a broad range of symptoms in otolaryngology, edited by a team of New Zealand based experts in the field. The three volumes are each divided into two sections. Each section begins with the anatomy of the structures concerned, followed by chapters on associated symptoms and their diagnoses. The first volume covers head and neck, and laryngology, and the second volume covers rhinology and facial plastics. The final volume covers otology, with a section on paediatrics which includes nasal, oral, oesophageal and otological symptoms, including guidance on choking and swallowing difficulties. This comprehensive book is enhanced by 900 full colour images across 1200 pages, making this an essential resource for consultant otolaryngologists and residents.

**Key Points**

- \* Three volume guide to symptoms and diagnosis in otolaryngology
- \* Two sections in each volume, covering anatomy and a broad range of symptoms
- \* Final section devoted to symptoms in paediatric otolaryngology
- \*900 full colour images
