**"darkly atmospheric and delectably sexy."**

*Honorita Todd has more secrets than most people and she's hiding them in Whitechapel. Blade is the master of the rookeries and agrees to protect her, but at what price?*

Most people avoid the dreaded Whitechapel district. For Honorita Todd, it's the last safe haven as she hides from the Blue Blood aristocracy that rules London through power and fear.

Blade rules the rookeries—no one dares cross him. It's been said he faced down the Echelon's army single-handedly, that ever since being infected by the blood-craving he's been quicker, stronger, and almost immortal.

When Honorita shows up at his door, his tenuous control comes close to snapping. She's so...innocent. He doesn't see her backbone of steel—or that she could be the very salvation he's been seeking.

A unique, sexy paranormal romance, Bec McMaster's London Steampunk novels will appeal to fans of Gail Carriger, Kristen Callihan's Darkest London series, and the Blud series by Delilah Dawson.

### **RITA finalist Bec McMaster's London Steampunk series:**

Kiss of Steel, Book 1 – Honorita's last hope is the most dangerous man in London's underworld, and she may be his last hope as well

My Lady Quicksilver, Book 3 – Rosalind risks her life, and her heart, to get close to the one man who could find and free her brother. But will he?

Forged by Desire, Book 4 – RITA finalist, When Perry fled her thrall contract and joined the Nighthawks, she thought she would be safe, but danger is stalking her again

## Editorial Review

From [Booklist](#)

\*Starred Review\* Honoria Todd had a happy, comfortable life until her father was murdered. Now, six months later, she is desperately clinging to the illusion of respectability while at the same time taking care of her younger sister and brother. When Honoria loses her job teaching elocution, she has no choice but to accept the offer of Blade's protection from her old nemesis, the Duke of Vickers. As the unofficial ruler of Whitechapel, Blade might share the same taste for blood as the Echelon, who live in the posh part of London, but his philosophy of life is nothing like that of the blue-blooded aristocrats who rule over the city. Discovering the secrets Honoria closely guards could provide Blade with the leverage he needs to finally bring down Vickers, but only if Blade's unexpected love for Honoria doesn't destroy them both first. Set in an exquisitely imagined, alternative late-nineteenth-century England, McMaster's wildly inventive plot deftly blends elements of steampunk and vampire romance with brilliantly successful results. Darkly atmospheric and delectably sexy, Kiss of Steel is an extraordinary debut. --John Charles
