## Challenger RPG a Free Roleplaying Game By David Dostaler

#1 in Free Roleplaying and Fantasy Kindle Books "January, February, and March 2012"

#14 in Free Fantasy Kindle Books "January 2012"

Top 50 and under in Free Fantasy Kindle Books "From January 2012 Onwards..."

Outranked "Angry Birds" in Games on Kindle at one point.

This is a pen and paper tabletop roleplaying game, not a computer game. If you're looking for one of those, I'm afraid you'll have to look elsewhere. I highly recommend the dungeon-crawling German rogue-like "Lost Labyrinth" which is free to download and a purely awesome game.

If you're looking for fiction, you're in luck! You will find the completely free comic fantasy novel "The End of The World" at the very back of this e-book. Enjoy.

If you're interested in an RPG game, please read on below.

I'd like to give a special 'thank you' to the tens of thousands of gamers and readers who have downloaded and bought my books. That's totally awesome guys!

New version of Challenger in the works.

\*\*\*

### Challenger RPG Game Features:

Free, 20+ Races, 36 Classes, 50+ skills including: specific skills, broad skills, power skills, and special ability skills. GM rolls no dice, completely player-driven approach to gaming with a core mechanic using the d20 and set damage ratings for most weapons so combat is faster and more furious than ever before. 2x faster combat than 4E Dungeons and Dragons.

More than 60 Pages of GM advice useable with any system. New rules on stacking monsters, monster subtypes, magic items, a list of monsters for use with Challenger, traps, and rules on non-combat obstacles complete with TN's.

The rules on Base Skills have been removed and clarified. No more must you roll 75 different base skills to start play. It's as simple as choosing your skills, classes, race, 5 powers, purchasing equipment and calculating your stats and you're done!

New rules on armor, equipment, and improved background powers to further detail your character like never before. Crazy races have been ditched and new races combined to make the rules on races simpler, more flexible, and even more entertaining!

You'll still find the classic traits generator for your character, improved formatting thanks to the masterful Matt Fleming (soon to be included in the game credits) and fantastic artwork by the incomparable L.E.C.D.

#### Our Other Products

Of Mice Men and Wizards (free in sample)

Challenger: Basic Edition (for new players)

The Vampire War

And more...

You can find a complete list of books by clicking on the link of the author's name above. Please enjoy the free books!

#### Our Mission Statement:

Despite the low (or nonexistent) price of this product I've invested hundreds (if not thousands) of hours in its production. I've flown over 1,500 miles and met countless game designers, playtesters, and fellow gamers such as yourself, and I know Challenger isn't done yet. There's still a long way to go but I must thank everyone who helped me. This game would not be what it is today without the invaluable feedback from countless gamers such as yourself. If you have anything at all to say about the game, good or bad, I'd love to hear it. Any critical advice would be even more welcome. Thank you.
