

The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics)

From Routledge

The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics) From Routledge

Essentialism--roughly, the view that natural kinds have discrete essences, generating truths that are necessary but knowable only *a posteriori*--is an increasingly popular view in the metaphysics of science. At the same time, philosophers of language have been subjecting Kripke's views about the existence and scope of the necessary *a posteriori* to rigorous analysis and criticism. Essentialists typically appeal to Kripkean semantics to motivate their radical extension of the realm of the necessary *a posteriori*; but they rarely attempt to provide any semantic arguments for this extension, or engage with the critical work being done by philosophers of language. This collection brings authors on both sides together in one volume, thus helping the reader to see the connections between views in philosophy of language on the one hand and the metaphysics of science on the other. The result is a book that will have a significant impact on the debate about essentialism, encouraging essentialists to engage with debates about the semantic presuppositions that underpin their position, and, encouraging philosophers of language to engage with the metaphysical presuppositions enshrined in Kripkean semantics.

Editorial Review

Review

'This is a collection of cutting-edge essays on natural kinds and natural kind terms. It at once makes progress on and serves as an advanced introduction to the important topics it addresses. It contains plenty of interest to both the expert and the non-expert on natural kinds. Supplemented by relevant background material, it would serve excellently as the main text for a semester-long graduate or advanced undergraduate seminar on its topics.'

– *Notre Dame Philosophical Review*

About the Author

Helen Beebee is Professor of Philosophy at the University of Birmingham, UK.

Nigel Sabbarton-Leary is completing his PhD at the University of Birmingham, UK

Users Review

From reader reviews:

Derek Morton:
