**Nongynecologic Cytopathology: A Practical Guide (Essentials of Diagnostic Pathology)** By Peter Spieler, Matthias Rössle

This manual for diagnostic cytologists offers detailed guidance on diagnostic problems likely to be encountered in everyday practice. It encompasses exfoliative and aspiration cytology of all major nongynecologic body sites. Each chapter opens with an algorithm that presents the reader with the relevant microscopic findings, the most important additional findings, and the differential diagnostic possibilities and problems in a clear and easily remembered form. Another important feature is the wealth of high-quality color photomicrographs, which clearly document the visual appearances of the most important lesions and highlight the differential diagnostic difficulties. The accompanying text contains helpful general remarks and presents further relevant information on diagnostics, differential diagnostic procedures, and auxiliary methods. Besides established cytologists and pathologists, cytopathologists in training and cytotechnologists will find this book to be a valuable aid.

#### Aus den Rezensionen:

“... einen Einführungsteil bezugnehmend auf geeignete Techniken zur Materialgewinnung, Indikationsstellung zur zytologischen Untersuchung, zusätzliche Färbemethoden und Spezialtechniken, Fehlerinterpretation und auch die Kriterien zur Abfassung eines suffizienten zytologischen Befundes ...“ (Dr. Andreas Kiefer, in: Kärnter Ärztezeitung, Jg. 4, 2014, S. 47)

#### From the Back Cover

This manual for diagnostic cytologists offers detailed guidance on diagnostic problems likely to be encountered in everyday practice. It encompasses exfoliative and aspiration cytology of all major nongynecologic body sites. Each chapter features an algorithm that presents the reader with the relevant microscopic findings, the most important additional findings, and the differential diagnostic possibilities and problems in a clear and easily remembered form. These algorithms will without doubt prove of great practical value to the reader, and they are also helpfully presented together at the end of the book. Another important feature is the wealth of high-quality color photomicrographs, which clearly document the visual appearances of the most important lesions and highlight the differential diagnostic difficulties. The accompanying text contains helpful general remarks and presents further relevant information on diagnostics, differential diagnostic procedures, and auxiliary methods. Besides established cytologists and pathologists, cytopathologists in training and cytotechnologists will find this book to be a valuable aid.

#### About the Author

Peter Spieler, MD, trained at the University of Basel, Switzerland, before specializing in Clinical Pathology at the Kantonsspital St. Gallen and University of Berne. After serving as Assistant Medical Director at the Pathology Institute in St. Gallen, he undertook further education in diagnostic cytology and research at the Karolinska Hospital in Stockholm. In 1980 he returned to become Head of the Cytology Department at the Kantonsspital St. Gallen and since 2002 has had additional responsibility for the professional management of the Cytologic Laboratory of the Regional Cancer Society. Dr. Spieler has accumulated enormous experience in clinical cytology during the course of more than 30 years' activity in the field. Around 100,000 fine-needle aspirations have been performed at his institution, and he has been personally involved in the broad use of ultrasound-guided aspiration and the continual application of new laboratory and diagnostic technologies to cytologic specimens.

Matthias Rössle, MD, passed the German State Examination in Medicine in 1999 and in 2001 presented his Experimental Thesis to receive the title Doctor of Medicine from the Ludwig Maximilian University of

Munich, Germany. He then undertook training in Clinical Pathology at the Institute of Pathology, Ludwig Maximilian University of Munich, and at the Institute of Pathology, Cantonal Hospital Lucerne, Switzerland. In 2006 Dr. Rössle received the German Board Certificate in Anatomical Pathology and then undertook further training in Clinical Cytopathology at the Institute of Pathology, Cantonal Hospital, St. Gallen, Switzerland, leading to procurement of the Swiss Board Certificate in Cytopathology. From 2008 to 2009 he was Staff Pathologist and Cytopathologist at the Institute of Pathology, Cantonal Hospital Lucerne, Switzerland. Since 2010 Dr. Rössle has served as Pathologist and Cytopathologist at the Institute of Surgical Pathology, University Hospital Zurich, Switzerland, with special research interest in head and neck pathology and cytopathology.
