As a scholar exactly feel bored to reading. If their teacher requested them to go to the library or even make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is to be complicated.
