Forensic Science: From the Crime Scene to the Crime Lab (2nd Edition) By Richard Saferstein

Forensic Science: From the Crime Scene to the Crime Lab, Second Edition, is designed to present forensic science in a straightforward and student-friendly format. Ideal for students with limited background in the sciences, topics are arranged to integrate scientific methodology with actual forensic applications. Discussions are focused on explaining state-of-the-art technology without delving into extraneous theories that may bore or overwhelm non-science students. Only the most relevant scientific and technological concepts are presented, keeping students focused on the practical knowledge they'll need in the field.

Editorial Review

About the Author

"Richard Saferstein, Ph.D.," retired in 1991 after serving 21 years as the Chief Forensic Scientist of the New Jersey State Police Laboratory, one of the largest crime laboratories in the United States. He currently acts as a consultant for attorneys and the media in the area of forensic science. During the O. J. Simpson criminal trial, Dr. Saferstein provided extensive commentary on forensic aspects of the case for the "Rivera Live" show, the E! television network, ABC radio, and various radio talk shows. Dr. Saferstein holds degrees from the City College of New York and earned his doctorate degree in chemistry in 1970 from the City University of New York. From 1972 to 1991, he taught an introductory forensic science course in the criminal justice programs at the College of New Jersey and Ocean County College. These teaching experiences played an influential role in Dr. Saferstein's authorship in 1977 of the widely used introductory textbook "Criminalistics: An Introduction to Forensic Science," currently in this eighth edition. Saferstein's basic philosophy in writing Criminalistics is to make forensic science understandable and meaningful to the nonscience reader, while giving the reader an appreciation for the scientific principles that underlie the subject.

Dr. Saferstein currently teaches a course on the role of the expert witness in the courtroom at the law school of Widener University in Wilmington, Delaware. He has authored or co-authored more than 35 technical papers covering a variety of forensic topics. Dr. Saferstein has co-authored "Lab Manual for Criminalistics" (Prentice Hall, 2004) to be used in conjunction with this text. He has also edited the widely used professional reference books "Forensic Science Handbook," Volume I, second edition (Prentice Hall, 2002) and "Forensic Science Handbook," Volumes II and III (Prentice Hall, 1988, 1993). Dr. Saferstein is a member of the American Chemical Society, the American Academy of Forensic Sciences, the Forensic Science Society of England, the Canadian Society of Forensic Scientists, the International Association for Identification, the Mid-Atlantic Association of Forensic Scientists, the Northeastern Association of Forensic Scientists, the Northwestern Association of Forensic Scientists, and the Society of Forensic Toxicologists.

Users Review

From reader reviews:

Rosa Tarpley:

What do you in relation to book? It is not important along? Or just adding material when you want something to explain what you problem? How about your extra time? Or are you busy individual? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have spare time? What did you do? All people has many questions above. They should answer that question mainly because just their can do in which. It said that about book. Book is familiar in each person. Yes, it is right. Because start from on kindergarten until university need this Forensic Science: From the Crime Scene to the Crime Lab (2nd Edition) to read.
