Where Keynes Went Wrong: And Why World Governments Keep Creating Inflation, Bubbles, and Busts By Hunter Lewis

In responding to the financial crash of 2008, both the Bush Administration and the Obama Administration have relied on prescriptions developed by John Maynard Keynes, the most important economist since Marx. But should we be relying on Keynes? What did Keynes actually say? Did he make his case? Hunter Lewis concludes that he did not. If Keynes was wrong then so are the economic policies of virtually all world governments today.

Now with linked endnotes and index.

Editorial Review

Review

"Just what the world needs, and just in time. Keynes is demolished and his quack system refuted. But this wonderful book does more. It restores clear thinking and common sense to their rightful places in the economic policy debate. Three cheers for Hunter Lewis!" — James Grant (Editor of Grant's Interest Rate Observer)

“...[An] impassioned...and...much needed book.” —Gene Epstein (Barron's)

About the Author

Hunter Lewis is the author of six books in the related fields of economics and values, as well as numerous magazine, newspaper, and online articles. His much-praised book *Are the Rich Necessary?* was called "highly provocative and highly pleasurable" by the New York Times, "great reading" by Publishers Weekly, and "worth reading aloud on a family vacation" by Barron's. A graduate of Harvard University, Lewis co-founded Cambridge Associates, LLC, a global investment firm whose clients include leading research universities, charitable organizations, and families. He has served on boards and committees of fifteen not-for-profit organizations, including environmental, teaching, research, and cultural organizations, as well as the World Bank.

Users Review

From reader reviews:

Michael Collins:

In this 21st millennium, people become competitive in each and every way. By being competitive today, people have to do something to make these survive, being in the middle of typically the crowded place and notice by surrounding. One thing that occasionally many people have underestimated this for a while is reading. Sure, by reading a e-book your ability to survive improve then having chance to endure than other is high. You can get a lot of advantage after read this book. This kind of book exist new know-how the information that exist in this guide represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. That book will bring you with new era of the globalization. You can read the e-book on your own smart phone, so you can read this anywhere you want.

Ruth Paiz:

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Where Keynes Went Wrong: And Why World Governments Keep Creating Inflation, Bubbles, and Busts can make you sense more interested to read.
