## Dreamweaver CS6 in easy steps By Nick Vandome

**Dreamweaver CS6 in easy steps** caters for people designing their own websites as well as for professionals who need to master the key aspects of the new release. All of the main functions of Dreamweaver CS6 are covered, so that you can get up to speed as quickly as possible and start designing and producing high quality websites, including:

- Multiscreen Preview
- Fluid Grid Layouts
- Editing HTML
- Using CSS
- Creating and using hyperlinks

The book shows you how to work with the different workspace views so that you can work in either design or code view. The book also looks at how to optimize a website for mobile devices using Fluid Grid Layout and the new Multiscreen Preview. CSS is integral to modern websites and this is covered in detail: from the basics of CSS, to creating and applying styles so that you can produce standards-based websites that have a consistent look and feel across all pages. Also, the new CSS3 Transitions panel shows you how to create original and engaging animated features with CSS.

**Dreamweaver CS6 in easy steps** simplifies each stage of website creation, and is aimed at anyone who wants to produce high quality websites, across different platforms including for tablets and smart phones.
