**Pierre Curie: With Autobiographical Notes by Marie Curie** By Marie Curie

"A delightful book. It marks one of the few instances in which the proverbial humdrum life of the student of physical science, together with the more austere ideals, have been made intelligible." — *The New York Times*

Nobel laureate Marie Curie offers a memorable portrait of her equally famous husband and lab partner, Pierre Curie. A scientific biography as well as an intimate memoir, this unique narrative recaptures Pierre Curie's youthful research and his first scientific breakthrough, the discovery of piezoelectricity. It further explores his pioneering work in crystallography and magnetism along with the couple's most famous achievement, the discovery of radium.

In addition to firsthand accounts of laboratory work and techniques, Marie Curie offers observations on her husband's personality and character, their family life, and the work of their scientific contemporaries, including Ernest Rutherford, Frederick Soddy, Friedrich Oskar Giesel, and Henri Becquerel. Curie also reconstructs her studies of radiation, discussing equipment, procedures, and results. These rare insights into two of history's great scientific minds will fascinate students of science and all readers interested in scientific discovery.

### **Editorial Review**

#### **About the Author**

French physicist Pierre Curie (1859–1906) shared the 1906 Nobel Prize with his wife, Marie, and Henri Becquerel for their work on radioactivity. Curie was also a pioneer in crystallography, magnetism, and piezoelectricity.

Polish physicist Marie Curie (1867–1934) was the first person to receive two Nobel Prizes, in physics and in chemistry. She was the first female professor at the University of Paris.

### **Users Review**

#### **From reader reviews:**

##### **Yadira Singh:**

Within other case, little individuals like to read book Pierre Curie: With Autobiographical Notes by Marie Curie. You can choose the best book if you love reading a book. Provided that we know about how is important any book Pierre Curie: With Autobiographical Notes by Marie Curie. You can add knowledge and of course you can around the world by a book. Absolutely right, since from book you can realize everything! From your country until finally foreign or abroad you may be known. About simple thing until wonderful thing you are able to know that. In this era, we can open a book or searching by internet product. It is called e-book. You need to use it when you feel bored to go to the library. Let's study.

##### **Brian Crafton:**
