The Cure and Prevention of All Cancers By Hulda Regehr Clark

More advanced than standard technology, Dr. Clark uses Syncrometer resonance to make astounding discoveries. They are all repeatable by anyone trained in this new science. Cancer is caused by a parasite linked to your DNA growth regulators by the alkylating agent, Methylene Blue. This dye accidentally gets into your water from filters and bleaches used to sanitize the water. This starts the linkage to other well known carcinogens to build the cancer-complex. Learn to avoid and destroy the cancer-complex using herbs and other low-tech methods to bring a cure, not just a treatment, for our most dreaded disease. Use electricity to boost your immunity with zapping, plate-zapping and homeography, all explained in this book. As in her other books, Dr. Clark describes her results in a clear, easy-reading style and puts them all in the public domain for your benefit. It will touch your noblest instincts to read how you cure yourself, your pets, and even domestic animals of this disease.

Editorial Review

About the Author

It took an independent research scientist to find the answers. Hulda Regehr Clark began her studies in biology at the University of Saskatchewan, Canada, where she was awarded the Bachelor of Arts, Magna Cum Laude, and the Master of Arts, with a High Honors major in biology. After two years of study at McGill university, she attended the University of Minnesota, studying biophysics and cell physiology. She received her doctorate in 1958. In 1979 she left government funded research and began private consulting and her own research. These are her results.

Users Review
