**The Developing Human: Clinically Oriented Embryology, 10e** By Keith L. Moore BA MSc PhD DSc FIAC FRSM FAAA, T. V. N. Persaud MD PhD DSc FRCPath (Lond.) FAAA, Mark G. Torchia MSc PhD

Written by some of the world's most famous anatomists, the 10th edition of *The Developing Human: Clinically Oriented Embryology* continues to present medical students with a comprehensive and easily digestible review of this complex topic. Clearly written and well-structured descriptions include just the information that's needed, while nearly 600 illustrations help provide a clinically oriented guide to human development, utilizing a week-by-week and stage-by-stage approach to describe fetal organ and system development.

*"..a well composed text for a good understanding of human development in the context of current state of knowledge of biomedical sciences."* **Reviewed by Dr. Neel Kamal** on behalf of BACCH Newsletter, June 2015

- **Review questions and answers at the end of each chapter** allow for effective exam preparation.
- **Covers the latest advances in embryology**, including normal and abnormal embryogenesis, causes of birth defects, and the role of genes in human development.
- **Details how discoveries in molecular biology** have affected clinical practice, including the development of sophisticated new techniques such as recombinant DNA technology and stem cell manipulation.
- **Clinical case presentations**, highlighted in special boxes, demonstrate how embryology concepts relate to clinical practice and are ideal for **preparing for the USMLE Step 1**.
- **Three-dimensional animations ? 2 new to this edition ?** help visual learners understand the subjects as discussed in the book as a whole.
- **New and thoroughly revised** assessment questions by Mark Torchia.
- Presents an **authoritative description of human embryology** through all stages of development.
- **Rich illustrations** correspond to the text to enhance comprehension.

- **Student Consult eBook version included with purchase.** This **enhanced eBook experience** allows you to search all of the text, figures, references, and videos from the book on a variety of devices.

## **Editorial Review**

### **Review**

"This book meets the needs of readers of anatomy and embryology , as well as mak[ing] the promise to offer explanations for malformations that the clinicians will come across in their clinical practice." **Reviewed by** Dr. Neel Kamal on behalf of BACCH Newsletter, June 2015

## **Users Review**

### **From reader reviews:**

#### **Debbie Brown:**

Within other case, little men and women like to read book The Developing Human: Clinically Oriented Embryology, 10e. You can choose the best book if you'd prefer reading a book. Providing we know about how is important a new book The Developing Human: Clinically Oriented Embryology, 10e. You can add knowledge and of course you can around the world by way of a book. Absolutely right, since from book you can realize everything! From your country right up until foreign or abroad you will be known. About simple matter until wonderful thing you can know that. In this era, we are able to open a book or searching by internet product. It is called e-book. You should use it when you feel fed up to go to the library. Let's read.

#### **Toni Williams:**

Do you have something that you prefer such as book? The publication lovers usually prefer to pick book like comic, brief story and the biggest you are novel. Now, why not striving The Developing Human: Clinically Oriented Embryology, 10e that give your fun preference will be satisfied through reading this book. Reading practice all over the world can be said as the method for people to know world far better then how they react in the direction of the world. It can't be mentioned constantly that reading behavior only for the geeky particular person but for all of you who wants to end up being success person. So , for every you who want to start studying as your good habit, it is possible to pick The Developing Human: Clinically Oriented Embryology, 10e become your current starter.

#### **Eddie Nelson:**

Are you kind of active person, only have 10 or even 15 minute in your day to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you have problem with the book compared to can satisfy your short period of time to read it because all of this time you only find reserve that need more time to be examine. The Developing Human: Clinically Oriented Embryology, 10e can be your answer because it can be read by you who have those short time problems.

**Merry Springs:**

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just little students that has reading's heart or real their interest. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that studying is not important, boring and also can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this The Developing Human: Clinically Oriented Embryology, 10e can make you feel more interested to read.
