### Editorial Review

#### From Publishers Weekly

Robbins's previous books (Giant Steps, etc.), along with his Personal Power audiotape series and seminars, have kept him at the forefront of the personal improvement industry for the past decade. Here, Robbins, who is white, adapts his book *Unlimited Power* (1984) for African Americans, who have mostly ignored his work. Although Robbins's name appears on this volume, the voice on nearly every page is that of his colleague, McClendon, head trainer of Robbins Research International, Inc., who is black and the owner of his own company, Succeleration Research Group. In a relentlessly positive and encouraging tone, he uses his own personal experiences and many examples of famous African Americans to explain Robbins's theories. Behavior modification exercises for achieving personal, career and financial success are included as well. The information here is universally appealing and applicable, but people of color accustomed to receiving information that is supposedly meant for everyone, and yet is presented only by whites using only whites as examples, will find this book a refreshing change. According to Robbins's own theory, however, readers will have to be "visual strategists" to make it through this lengthy volume; audiotapes and seminars-for those who are more "auditory" or "kinesthetic"-are sure to follow. 75,000 first printing.

What would a Robbins novel be without the ubiquitous sex, wealth, and power?

#### From Booklist

Anthony Robbins is one of the biggest names in the self-empowerment movement, and his book *Unlimited Power* (1986) continues to be an international best-seller. In his introduction to this volume, Robbins admits that though he can empathize with African Americans, he has obviously never lived the black experience; thus, when it came to adapting his philosophy and motivational techniques for a black audience, he chose his friend and associate Joseph McClendon to help him. The book itself, while updated, is not much different from the original; the major change (along with McClendon's first-person narrations) is the inclusion of anecdotal material from the black community and the use of African American movers and shakers as examples of accomplishment. Through the lives of successful African Americans, the text filters the core of Robbins' teachings: reprogramming the mind for success, eliminating fears and phobias, and imbuing the body with health and energy. Certainly Robbins' success on the motivational circuit suggests that his teachings contain strong messages for *anyone* wanting--and willing--to recharge their lives. *Ilene Cooper*
